

“UVUE” Drive Recorders

Why you and your customers will to love our Range!

Drive Recorder's or Dash Cam's as they are often called are certainly the 'buzz' product at the moment. You will often see footage on the news of an incident filmed by someone driving along who happened to capture the accident. Finally, a product customers ask for and we are here to help! It will become paramount that we can explain and demonstrate the difference between 'cheapy' versions available and our quality systems.

Customer and dealer service

We will always be available to answer you and your customers questions, give advice and deliver service where needed. When you sell a new model we will show you how to operate the unit and erase existing recordings for confident vehicle hand overs.

Our whole range has a 3 Year warranty!

Like anything made by man, they can fail. To keep your customers happy our warranty is simple, no gimmicks replacement.

Quality image sensors and lenses

So recordings are clear, sharp and bright all our units offer top quality HD and/or FHD image sensors from companies like Sony and Panasonic.

GPS is standard in our units

This is useful when you need to prove where you were or prove where you were not (speeding camera).

Professionally Installed NOT DIY

Our units are all professionally installed and hard wired in so they as much as possible a part of the car. Quality 3M tapes are used for reliable mounting.

Personalise Your Settings

Our cameras feature many programmable features so customers can personalise their drive recorder installation.

Complete Instructions

All units come with either a quality detailed colour instruction booklet or instructions built into the smart phone app.

Memory card adaptors

USB *and* card slot adaptors are supplied to view the footage on a PC or Mac. Your customers do not need to purchase anything else, our kit is complete!

Use it for Good!

It is a myth that the footage needs to be in FHD to be admissible in court. In fact, if you can read the number plate, it can be used. The fact that our units all have GPS and date stamp/time helps with this as well – proves location and time of event. A little VIC Pol fact, in 99% of cases, the footage is enough.

Cheap internet and bulk store product

Bulk store and eBay products are made down to a price with everyone wanting to be the cheapest. Our units offer better quality images, longer life spans, no warranty hassles and classier installations.
