

DASHCAM BATTERY PACKS

NOW AVAILABLE!

Extend Parking Mode. Maximise Protection.

Protects Vehicle Battery Performance

Modern vehicles—especially EVs, hybrids, and those with smart charging systems—can be sensitive to constant power draws. By using a dashcam battery pack, you ensure the dashcam runs independently from the vehicle's main battery during parking mode. This maintains battery health and prevents unnecessary drain.

No more concerns about the camera affecting your car's electronics—just seamless protection, on or off the road.

Two Models Available

COMPACT BATTERY PACK

Ideal for EVs, hybrids & vehicles with limited 12V capacity.

HIGH-CAPACITY BATTERY PACK

Maximum runtime for long parking protection.

Why Buy Battery Packs with Dashcams?

Dashcams are designed to protect against **accidents (especially when you're not at fault), road rage, Insurance fraud and parking damage.**

However, many customers experience issues such as the **dashcam shutting off too soon and dashboard warning lights.**

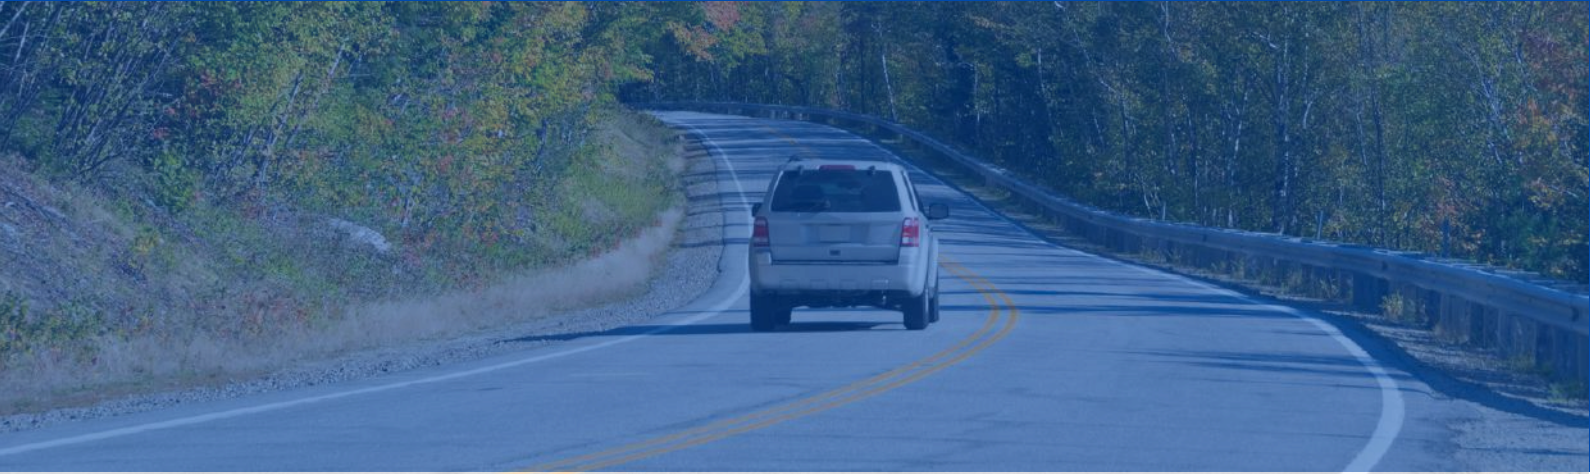

The Solution: Add a Dashcam Battery Pack

Here's how it works:

- ✓ Charges while driving
- ✓ Powers the dashcam when the car is off
- ✓ Prevents battery issues and error messages

Set the Right Expectations

- ✓ Car must be driven regularly to charge the pack
- ✓ Low light and poor weather may reduce camera visibility
- ✓ Total darkness = limited recording

Product Highlights

South Korean Made

Safe LiFePo4 Battery Chemistry

12-hour and 24-hour models

Benefits

OFFER PEACE OF MIND

Customers can confidently leave their vehicle knowing their dashcam stays powered, even when parked for hours.

PERFECT FOR EVS AND HYBRIDS

Provide a reliable solution for cars with sensitive or compact batteries.

UPGRADE PROTECTION

Extend parking surveillance from minutes to hours, capturing every critical moment while the vehicle is unattended.

ADD VALUE TO EVERY SALE

Position the battery pack as an essential enhancement, not just an accessory.

BOOST CUSTOMER SATISFACTION

Offer a proactive solution that improves performance and reliability.
